

The Bone & Joint Decade 2000-2010

UNIFIED VOICES CAN
MAKE A DIFFERENCE

AND THE TIME HAS COME TO SPEAK

Launched in January 2000, the Bone and Joint Decade is a global, multidisciplinary non-profit campaign which promotes musculoskeletal health initiatives on all continents. The Bone and Joint Decade acts as an umbrella organisation under which programmes are developed in partnership with more than 750 patient groups, professional and scientific organisations, industry, researchers and governments. We are honoured to have the support of the United Nations, the World Health Organization and the World Bank. Now halfway through the Decade, major strides have been made in advancing scientific knowledge. Our next step is to implement programmes and standards which will have a positive impact on global public health policy. This is where you can help. United, we can make a difference in musculoskeletal health. Please visit www.bjdonline.org.
